### Reminders of Your Screening Requirements

-  **FL Statute 383.14** mandates that a screening form is completed for **all** pregnant women at their **first** prenatal appointment
-  **64C-7.009(1)** mandates that the health care provider assures that at their initial visit, pregnant women receive an explanation of Healthy Start services and are informed of their risk status as determined by the prenatal screening form
-  **64C-7.010(1)** mandates that the health care provider maintains a completed copy of the screening form in the pregnant woman's medical record

### Additional Screening Information

-  The screening form assesses a woman's risk for delivering prematurely and/or having a low birth weight baby
-  Screening form information is kept confidential and is used to collect data on pregnancy and birth outcomes which helps Healthy Start identify needs and make plans for reducing poor birth outcomes
